

## ACHIEVEMENTS

### Environmental Education

To create environmental awareness among students our school has Eco Club. The club strives to create awareness of the need for preservation of our environment and sustainable use of natural resources.

To achieve this aim, it undertakes practical projects such as plantation, waste utilization etc.

- **Go green, be clean:** To develop awareness about cleanliness. Every year school organizes plantation programme based on the school project ‘One hand, one tree (Ek Hat, Ek Ped)!’ The school also asks the children to “**Keep away our campus free from plastic**”. That is why students are collecting all plastic and deposit in a dust bin. All garbage and waste is collected, and they are divided as **Degradable** and **Non – Degradable**.
